We are not listing many varieties wholesale this year but if you are interested in larger quantities of varieties not listed we may be able to supply your needs upon request. Write us.

F. O. B. ITEMS. If your order contains both F. O. B. and retail items, we will ship them together in one package f. o. b. but will give enough overcost and extras to more than offset the carrying charges on the retail items. If the order is a large one and you want the 2 classes shipped separately, be sure to mark the order blank accordingly.

LABELS

Everyone who grows bulbs under name will want labels. There are many different kinds on the market but think the best cheap label is a painted wooden one. However, in using the wooden labels they really should have a coat of varnish after the name is written, otherwise the paint will weather off taking the name with it. 12 x 1 1/2, 25 for 80 cents. 100 for \$2.75.

IDENTIFICATION OF GLADIOLUS

Do not send a single bloom inside a letter. When the letter goes thru the stamping machine at the post office all the moisture in the bloom is pressed out on the writing in the letter and is so blurred one can not make out its meaning and the crushed bloom so damaged it can not be identified. Just send a part of the stem with 3 or 4 buds on and leave enough stem for us to place in water for the bud to open. Do not send the very tip of the spike and do not put any wet paper or anything moist whatever in the package.
